Customer Reviews

Awesome! I ordered this on prime free two day shipping, three days before the geometry regent. Prior to this, I had not done any studying at all for the regent. When it arrived the day before the regent, I sat down for 12 straight hours of reading through and practicing the examples in the book. I wouldn't advise anyone else to study like this, but it worked for me, evidently, as I scored in the 90's. I would say that it is not worth it to buy the power pack, as the regents included in the regents exams and answers is the same as those in the let's review book. Definitely a great buy, though.

My daughter is so happy and is helping her with her work at school TM • •» ^^
