Customer Reviews

These flash cards seem well-researched and exhaustive in their coverage. They might benefit from some color on one side or an icon of sorts like playing cards, to help distinguish the question side from the answer side. However, there are many ways to implement fun strategies to use these flash cards as learning tool that make learning experiential. Color coding the cards into suits that relate to themes or eras, perhaps, would allow for a 'go fish' kind of game that might make memorization and response less tedious. Or, alternatively, using the cards as prompts to play a game of scrabble with yourself or others based on cards selected at random is another way to invoke a spirit of play into the learning process. A growing body of evidence in the gaming industry suggests that learning with a playful attitude in an experiential environment facilitates retention of information. Additionally, this is the foundation of the learning theories of Rudolf Steiner, Maria Montessori and Moshe Feldenkrais. These flash cards are not only an excellent resource in and of themselves, but could be used to generate alternative ways to engage in the material one needs to learn to pass the GRE subject exam in Literature. Precisely because the amount of information being tested is so extensive, it's important to consider additional modes of engagement. The GRE Literature in English flashcards offer just such a unique opportunity for learning with engagement.

So far I find this product to be very helpful, the cards are thorough and grouped in subject areas.

The flashcards were extremely helpful! They are easy to study and they are well-organized, too.

The flashcard study system for the GRE Literature in English exam is a great way to get the most study time in for the exam. It is not like other flashcards that just give you a part of the answer without giving a real complete response. Instead these cards provide a detailed response so you can be sure that you are responding correctly and not mixing up definitions or related subjects. They are written clearly and you can take them anywhere you go which increases the amount of time you can actually study for the test and the more you study the more confident you'll feel about taking it.
