Customer Reviews

These flashcards were my saving grace while preparing for the LSAT. I had no idea something like this even existed. I studied the LSAT prep guides, did online videos, read all sorts of things; but nothing was more helpful to me than these flashcards. My understanding of all the concepts were clearer, more focused, and easy to recall. I will not have my score back for a few weeks, however, regardless of the score these flashcards made studying a whole lot easier and more fun than when I was preparing to take the test the first time in 2011. I wish I had the cards back then. I may not have had to take the LSAT a 2nd time. If you're a visual learner and appreciate "CliffNotes" style reading/review, then get these cards. I wrote notes all over mine so they may not be as useful as a brand new set.

When preparing for the LSAT, taking practice test after practice test can get monotonous. This set of LSAT Flashcard Study System Flashcards are a great way to throw something else into the mix. The cards are a nice size and are sturdy. They cover logical reasoning, analytical reasoning and Reading Comprehension. I love the idea of Flash Cards - I love holding them in my hands and being able to lay on the couch or in bed and quickly go through them... but in this case I am not sure flash cards are the best way to study for the LSAT (I would still give that title to do practice questions / practice exams). But, although they are not the best way they do break up the monotony of taking practice test after practice test. I received this product for free in exchange for sharing my honest and unbiased review. Opinion is entirely my own.

Ok this is my first review I'm getting ready for the test in February and these flash cards are great and useless. First of all, idk if the company made up some questions or took older tests but there are some questions out there that aren't included in the test today. The assumptions questions are totally left out (sufficient vs necessary) the weaken questions are there and I have to check for strengthen. There are some questions like we have to fill in the blanks with just a simple word. It doesn't ask you to complete the conclusion like a real LSAT test but to fill in the blank with a

word???? There are also some mismatch un formulated question such as the inferences ones. I m sorry but these questions aren't written on the LSAT . Also these flash cards are for practice don t expect to learn strategies with it. On the other hand the analytical reasoning is great but still go with what you re doing on strategy there are no explanation on the flash cards. The LR questions should reevaluated. I ll look through them in order to see if this is like a test. I took approximately 30 prep test and I haven't seen any of these questions written like that in the flash cards

Flashcards are a good study tool that can help you recall different information to mind. This flashcard system for the LSAT exam will help you in your endeavors to get ready for the exam. There are several flashcards in this collection for review. In that way, they offer a good amount of study time. Through this set of flashcards, you will understand the concepts of logical and analytical reasoning. These cards are full of lots of energy with boldfaced large print, many graphics, and a wealth of information on each card for review. There is also extra room on each card to write down additional notes as needed. They are setup in two different ways; at the beginning of the set of cards, you have direct questions to consider. As you move into the logical and analytical reasoning cards, you get more into open-ended questions that present different scenarios. These flashcards can be studied in group sessions or used for one-on-one review. The setup of the flashcards make then idea for group study. Classmates or friends can help you answer the different scenarios. For example, one group can cover the logical reasoning flashcards and another group can cover the analytical reasoning flashcards. This a solid set of flashcards to study for the LSAT exam. They are setup for easy review and can be easily transported, because they are light in weight and travel well. They will really help you flash your LSAT skills.

For a test like this, you may never feel like you can be fully prepared. But these flash cards can prepare you as much as is possible for this test. The flash cards have all of the details on them that will be covered on the test. They start at the beginning and go through it all. And they break the information down so it's easier to process a little at a time. If you want help preparing, these are the best cards you can find. Being in question and answer format will really help you get a feel for what the test will be like too.
