# Master The Millers Analogies Test (Academic Test Preparation Series)

## **Synopsis**

This book features teacher-tested tips that provide students with much-needed help in developing efficient test-taking techniques in order to score high on the Miller Analogies Test. It breaks analogies down into common categories, including Synonyms, Antonyms, Cause and Effect, Action to Object, Purpose, Use, Function, etc

## **Book Information**

Paperback: 264 pages

Publisher: Arco; 18th edition (June 17, 2004)

Language: English

ISBN-10: 0768914728

ISBN-13: 978-0768914726

Product Dimensions: 8.4 x 0.7 x 10.8 inches

Shipping Weight: 1 pounds

Average Customer Review: 3.7 out of 5 starsÂ  [See all reviewsÂ \(3 customer reviews\)](#)

Best Sellers Rank: #4,202,389 in Books (See Top 100 in Books) #41 inÂ Books > Education & Teaching > Higher & Continuing Education > Test Preparation > Graduate School > MAT #1647 inÂ Books > Medical Books > Psychology > Testing & Measurement #17641 inÂ Books > Textbooks > Test Prep & Study Guides

## **Customer Reviews**

This book provided practical knowledge and a lot of good practice questions. It was very very similar to the actual test. I recommend getting it if you are planning on taking the Miller Analogies test.

While the explanation of the test and scoring is okay - the formulated test prep questions are not the same quality as those on the real test. The CD is useful in that it familiarized me with the computer based format that I was to take - but the questions were too similar and simplistic. Had I only used this book, I would have been woefully under prepared. Go with one of the other titles instead. This book was a waste of money.

I'd never taken the MAT, so I was worried. I bought a used copy where some practice test pages were loose, but you could still use them. I did a bunch of the tests in the different 'categories' and when I took the MAT for the first time a few weeks later, I did very well. I'd recommend this book, because even if you think you \*know\* how to do analogies, the author teaches you how to identify

the type of analogy one is when you look at it so that you can quickly discover from what angle to process it.I blew the top off mine!
