Privatization And Public-Private Partnerships

Synopsis

The culmination of 25 years of groundbreaking work, E.S Savas presents here a complete guide to privatization: the background, theory and practical reality. The book explains what, why, when and how to privatize, discussing in detail: the processes of contracting services; using franchises and vouchers; diverting government-owned business; privatizing infrastructure through public-private partnerships; reforming education; privatizing the welfare state; and overcoming opposition to privatization.

ISBN-13: 978-1566430739

Product Dimensions: 6 x 0.8 x 9 inches

Shipping Weight: 1 pounds (View shipping rates and policies)

Average Customer Review: 3.7 out of 5 stars [See all reviews](#) (7 customer reviews)

Best Sellers Rank: #347,949 in Books (See Top 100 in Books) #99 in [Books > Politics & Social Sciences > Politics & Government > Public Affairs & Policy > Communication Policy](#) #177 in [Books > Textbooks > Social Sciences > Political Science > Public Affairs](#) #280 in [Books > Business & Money > Economics > Labor & Industrial Relations](#)

Customer Reviews

I will begin by stating that I have a major problem with the book. Savas skews his own statistics in order to push readers into supporting the privatization of our nation's public sector. His book focuses entirely on the private sector's greater efficiency over the public sector without addressing many other important issues. If you want a very one sided book that is pro-privatization, then buy this one. If, however, you would like a book that seeks to enlighten readers with facts and allows them to make their own decision on the matter, then find another book.

I'm interested in knowing more about the PPPs. Even though this book defends a view contrary to mine, it's very interesting to understand what are the grounds which the author uses to defend the PPPs.

This book provides a basic and academic description of the basics of privatization. It goes over the key terms and concepts used in the field. The author feels slanted towards being pro on privatization.

still in pretty good condition!
