Customer Reviews

I needed this book for my comparative governments class. So far so good, lots of interesting information about governments around the world. I would recommend this book for anyone interested in comparing and contrasting the structure, administration and history of the various political systems and/or governments around the world.

I discovered this book in class, where I had access to a digital version. I enjoyed reading the

selections and purchased the text for my book collection. No regrets.

Showed up on time, I paid for overnight shipping. Book is worn, but all the pages are there. No torn pages or markings.

An easy to understand text

Excellent, thank you!

Needed for school.

For class, forced buy

My biggest concern was getting the book to my daughter in college so that she could begin using it quickly. The book arrived promptly and in good order.
