Complete Spanish Grammar is another book in the Practice Makes Perfect series which happens to be a real bargain for the price.- The book has 26 different chapters- The book also includes over 2,500 exercises to help you learn Spanish- Thereâ™s even a bonus online section that includes audio and text Like the title of the books suggests, Complete Spanish Grammar is very complete. You will learn topics that are easy to understand such as conjugating verbs in the present tense and the preterit and imperfect tenses (past tenses). And you will also learn some of the most complicated topics of Spanish grammar such as reflexive verbs and the Spanish subjunctive mood. Youâ™ll also learn almost every other Spanish grammar topic imaginable. For example:- Irregular verbs- Stem changing verbs- Ser and estar- Determining when to use the preterit tense vs. the imperfect tense- The future and the conditional- The progressive tenses- The present perfect and the past perfect- The future perfect and the conditional perfect- The passive voice and passive constructions- Not just the present subjunctive but also the imperfect and the pluperfect subjunctive- Commands- Nouns and articles- Adjectives, adverbs, pronouns and prepositions- And a lot moreOne features that I found helpful about this book is that the author includes verb charts that you can quickly use as a reference. But the two things that I like most about this book are:One, the author gives plenty of advice on how to avoid many of the common mistakes that native English

speakers make when speaking Spanish.
