Customer Reviews

This was a wow read! The notion that Tantric Massage speaks solely of the physical aspect of sex is extremely skewed. The purpose of Tantric Massage was not merely to educate masses about different massage techniques, and also to promote a healthy relationship between the partners and

constructively use sexual energy. This book teaches how to do it and gives a brief history about it.

I was intrigued by the cover and title of this book so I decided to give it a go. I love how basic and easy it is to understand and follow. Chapter six that covered the basic techniques was one that really grabbed my interest. It covered everything from maintaining intimacy, going slow and why it's important to not rush through how to focus on your breathing, changing up positions. Multiple orgasms, in men and woman and how to achieve them. clitoral stimulation and on and on. I decided to talk to my spouse about giving some of this a shot. We put it to the test and after a few weeks the results were electrifying.

This is a quick read with very valuable information. Both male and female readers will find the information useful. Definitely can be used as a good reference manual and "refresher" course for anyone who already knows a little about tantric massage. For individuals who are not acquainted with the topic, this book will be a revelation.

We bought this book and are so glad we did, the topics covered are amazing and they may take a little practice but you will get it right. Thanks to this book every Thursday night is now date night, when my husband and I have our time with each other reconnecting with one another. The tantric positions covered leaves room for the imagination . I highly recommend you try them all. Some may seem wild and impossible but they are truly amazing. My three favorites are Passion Pretzel, G-force and The butterfly, after reading this book your sex life will be spiced up have more passion and will never get boring again.

This book can offer you something new and exciting. This book can help you to learn a completely different way of dealing with your energy which very often has a disturbing power. During the practice of Tantric massage, this book will teach you to use the secret technique for heightening and prolonging intimate pleasure, also heal wounded sexuality leading to increased power, vitality and longevity. This lessons inside offers you and sublime the benefits to your whole body, mind and spirit. I would definitely recommend this to my closest friends!

I couldn't sleep for a while after finishing this book; unfortunately, it wasn't because I was eager to try out what I had learned, but because I was so irritated that I'd wasted my money. I purchased this to learn more about tantric practices for some erotic fiction I am writing. Subject matter aside for a

moment, this book was poorly written. If you can get past the typos and missing words (I actually gave up on trying to understand several sentences because there just weren't enough nouns and verbs), you will find the entire book is poorly organized and scantily researched. For example, Riley writes, "There are many women who now prefer oral sex not be performed on them, and for good reason." How many women? And how does Riley know? I couldn't stop thinking about how helpful some citations would have been here, rather than the broad generalizations that followed that blame the porn industry and body insecurities. Whether Riley's statement is right or wrong, however, the entire sentence was unnecessary and represents a common experience that I had reading this book, which was: Riley uses a very broad stroke to paint a general, and generic, picture of too many topics and doesn't spend enough time covering actual "tantric massage and tantric love making techniques." When Riley does finally launch into the subject matter promised in the title, after first spending 26 of 76 pages trying to convince us - in the most general possible way - of the benefits of tantric sex, it is anticlimactic. Some parts are very graphic, while others are completely glossed over. I agree with other reviewers that diagrams would be helpful for the few techniques described, especially because of the writing's lack of clarity. For example, "behind" is sometimes used instead of "buttocks," leading to some fuzziness once you are trying to separate body parts from body positions. Furthermore, the tone of the writing changes once we reach the descriptions for the (mere) 14 sex positions. Maybe Riley was trying to be lighthearted, but the lack of reverence combined, oddly enough, with the lack of direct mentions of genitalia just makes this feel like something dirty that kids are whispering to each other on the playground rather than a useful handbook for consenting adults. I highly doubt "The Wow Him Powwow" or "Rock a Bye Booty" are direct translations from an ancient sexual practice designed to "launch [the participants] into the cosmos." There are some nuggets of information that are intriguing, more or less depending upon your experience, but that just made me want to read the book or articles that Riley apparently read before sitting down to write this. The saddest part, for me, was thinking that some readers might leave this book blaming themselves and/or their own lack of experience for not understanding the material; for a book that specifically touts the importance of feeling confident, competent, and sexy in the bedroom, that's a big miss.

Not a bad book to read. It goes over sex positions and how to stimulate one another as well as breathing. It kept me interested. I just wish they had more pictures simulating some of the positions. I like to give my wife massages and even tho I consider myself pretty good I wanted to learn more to my regimen. This book helped provide a few informative things, however there was a lot of fluff

material that I deemed unnecessary. Good material for those who have basic knowledge, but want more. It's a good for a companion to read who is less inclined.

And I thought I knew everything about pleasing my woman! This book is jam packed with great info to help you and your partner reach a higher level in your relationship. I am sure that you will enjoy it as much as I did.
