Ethical Dilemmas And Decisions In Criminal Justice (Ethics In Crime And Justice)

Synopsis

Packed with current, real-world examples, ETHICAL DILEMMAS AND DECISIONS IN CRIMINAL JUSTICE offers comprehensive, balanced, and practical coverage of ethics across all three arms of the criminal justice system: the police, the courts, and corrections. Readers not only find coverage of the philosophical principles and theories that are the very foundation of ethical decision-making, but also the latest challenges and issues in criminal justice--the war on terror, privatization, community corrections, the death penalty, the effect of the economic slowdown on the CJ system, the misuse of power/discretion by elected officials and/or other public servants, and much more. In addition, real-life cases and situations demonstrate the significance of ethics in today's world of criminal justice for those studying or contemplating a career in criminal justice. Customer Reviews

I needed this textbook for my class. I got the Kindle version. Great textbook. I wish that they made it available on the Kindle App on Windows 8. That is what I use to read Kindle books and wasn't able to read using this app because it is only available on the desktop version of the app or on Apple and Kindle devices.

I rented this book on a digital copy and loved it... when i had to find certain information within the book i only had to use the search/ find key which made it easier to work out. Great for what I needed

it for

Great condition as advertized and showed up well before estimated latest delivery date. I will definitely keep this company in mind next order!! Another great thing is that my college change requirements on me and I had to return it. I was able to do that hassle free!

Sadly I have to say this book it did not meet my expectations at all, first because it was hooded together with 2 big rubber bands, not on its original presentation, I'm having lots of troubles to keep the pages in order. And second it was not the edition I needed for my class, which makes my homework a nightmare, since the edition I got was the eight instead of seventh edition like my professor asked for, I couldn't find my homework or I cannot study as needed it for my tests.., therefore I'm kinda disappointed with it.

Easy to read book that I purchased for school.

I like the progression from ethics history to theory and application. It was an enlightening read with or without a criminal justice context. This should be a professional read for employees.

I hate Ethics!! But this book is easily understandable and overall an amazing book thus far. Would recommend this book to others.

the book was in great condition and arrived promptly. i have looked at the book from cover to cover and no issues found.
